### ROLAND IN TIME

Poor Roland has been stranded on Earth by the evil Maestro. The crystals that power the special drive of his brand new Anti-Matter Space-Time Run-A-Round, have been scattered through Earth's past and future.

Your task is to guide Roland through Earth's ages, searching for the crystals so that he can return home to confront his arch enemy.

As you move from scene to scene, you must beware of the many creatures and objects out to destroy you. It will take all your skill and nerve, to search the 53 scenes in which the crystals are hidden.

You are lucky enough to have regeneration tanks in your craft, but these can only be used 9 times.

Good Luck!! May the Lords of Time help you in your task!!
